TFL is Hope

Young People's Chorus of New York City™ to Perform at TFL Dream Gala

The Young People's Chorus of New York City™ has distinguished itself as one of the finest youth choruses in the world. Founded by its artistic director Francisco J. Núñez, in 1988, with a commitment to diversity and musical excellence, the chorus has won accolades for its performances on three continents everywhere, from Carnegie Hall and the White House to Smetana Hall in Prague and St. Martin in the Fields in London. The chorus represented the United States at the 2005 Seventh World Symposium on Choral Music in Kyoto. They will return to Japan in summer 2009 for a four-week, 18-city tour of the country. The Young People's Chorus was recently honored to sing for Pope Benedict XVI at Yankee Stadium on his first papal visit to the U.S.

"For over 20 years, the Young People's Chorus has brought together hundreds of gifted children from all ethnic, religious and economic background." said Cathy Rubin, Vice President of Marketing for Time For Lyme, Inc. and Co Chair Gala 2009,

"These children have worked together, learned together, made lifelong friends, and developed exceptional artistic and creative skills. They are a shining example of how the arts can help and serve others in need. We believe their performance on April 18 will inspire the Lyme community worldwide."

"Lyme Disease can devastate someone's life just because they went outside," said Nancy Bloom, Executive Director of Young People's Chorus. Sadly, children are highest at risk due to their outdoor activities. It is our dream that our children will inspire the hope and the courage to help Time for Lyme realize its dream – to create a Lyme free world."
